Eyes glowing faintly.

New vampire.

Lilith watches curiously.

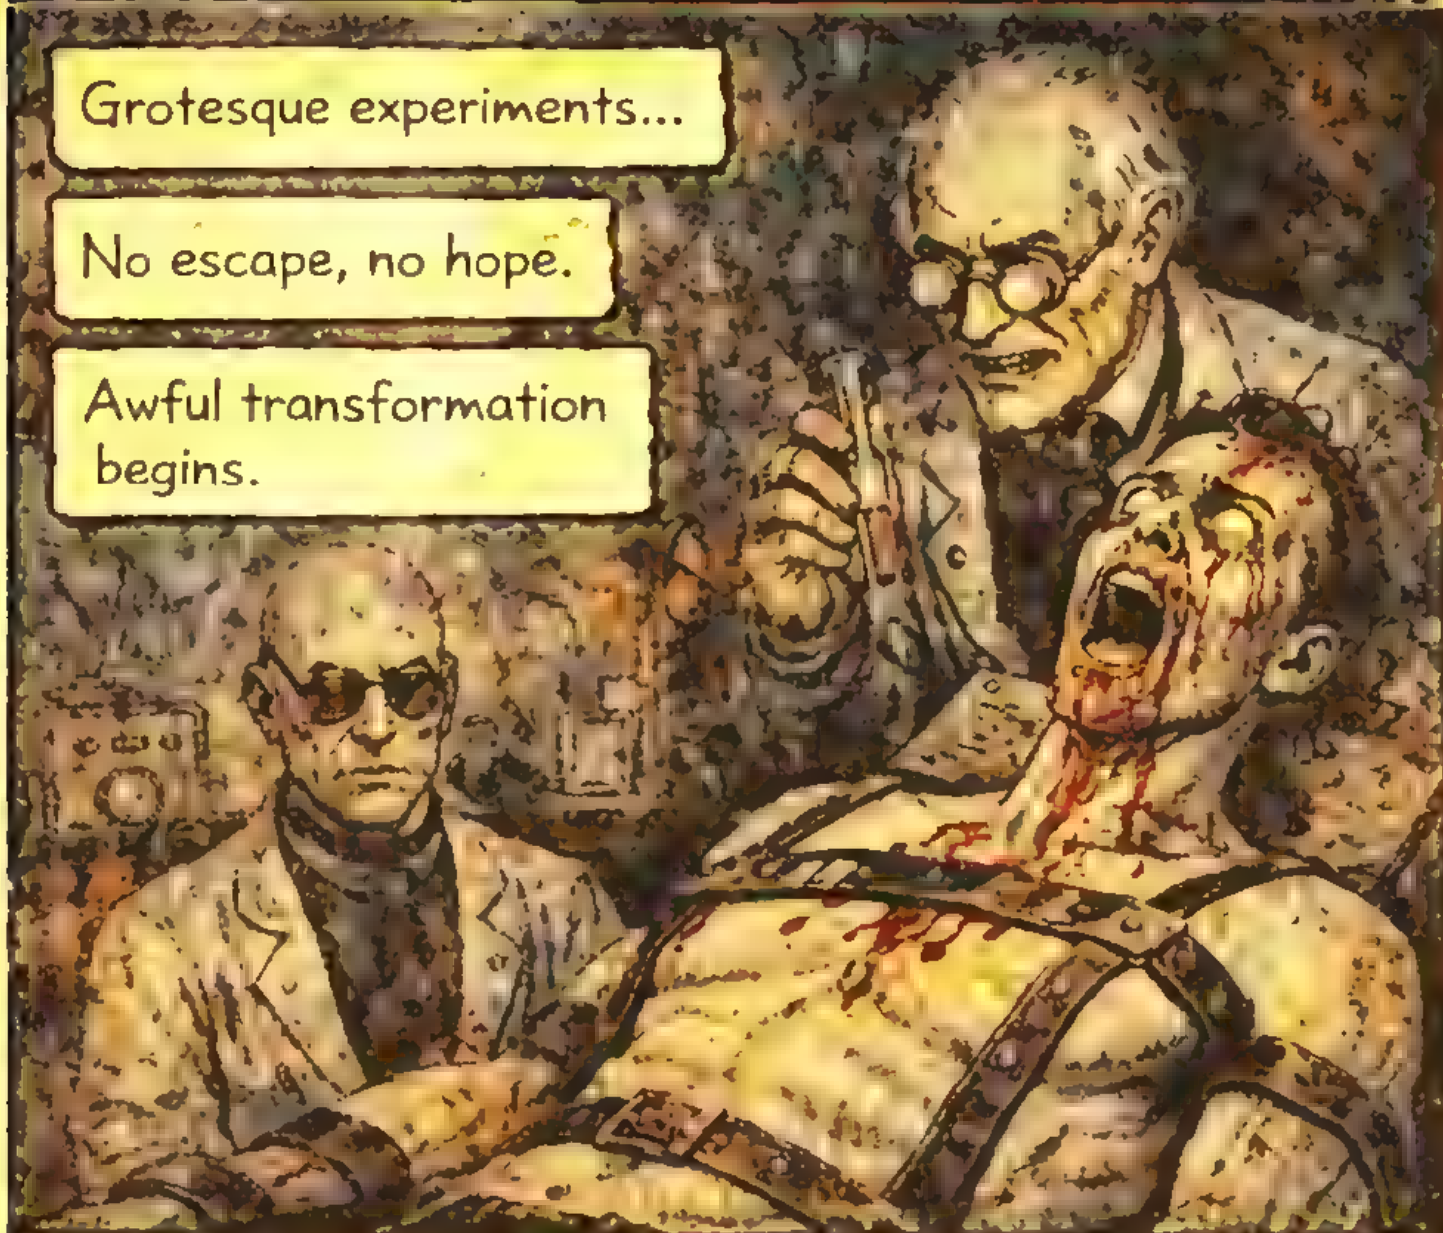

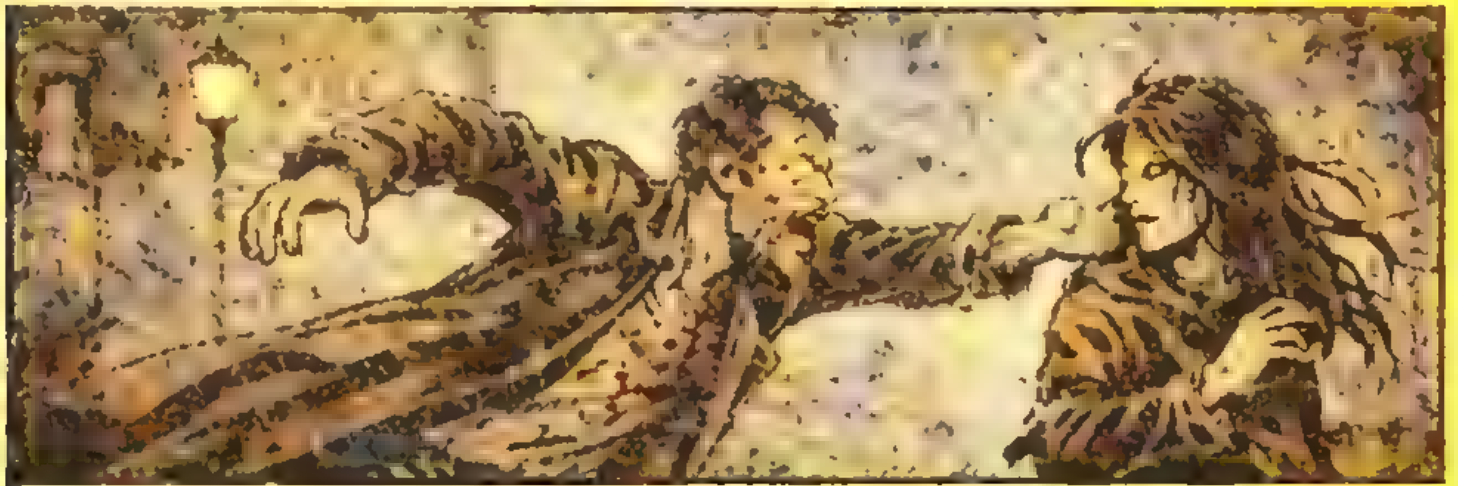

Grotesque experiments...

No escape, no hope.

Awful transformation  
begins.

You weren't chosen...

...You were... accidental.

Flawed subjects  
don't survive.

Someone did this.

Someone...  
... created him.

An abandoned laboratory...

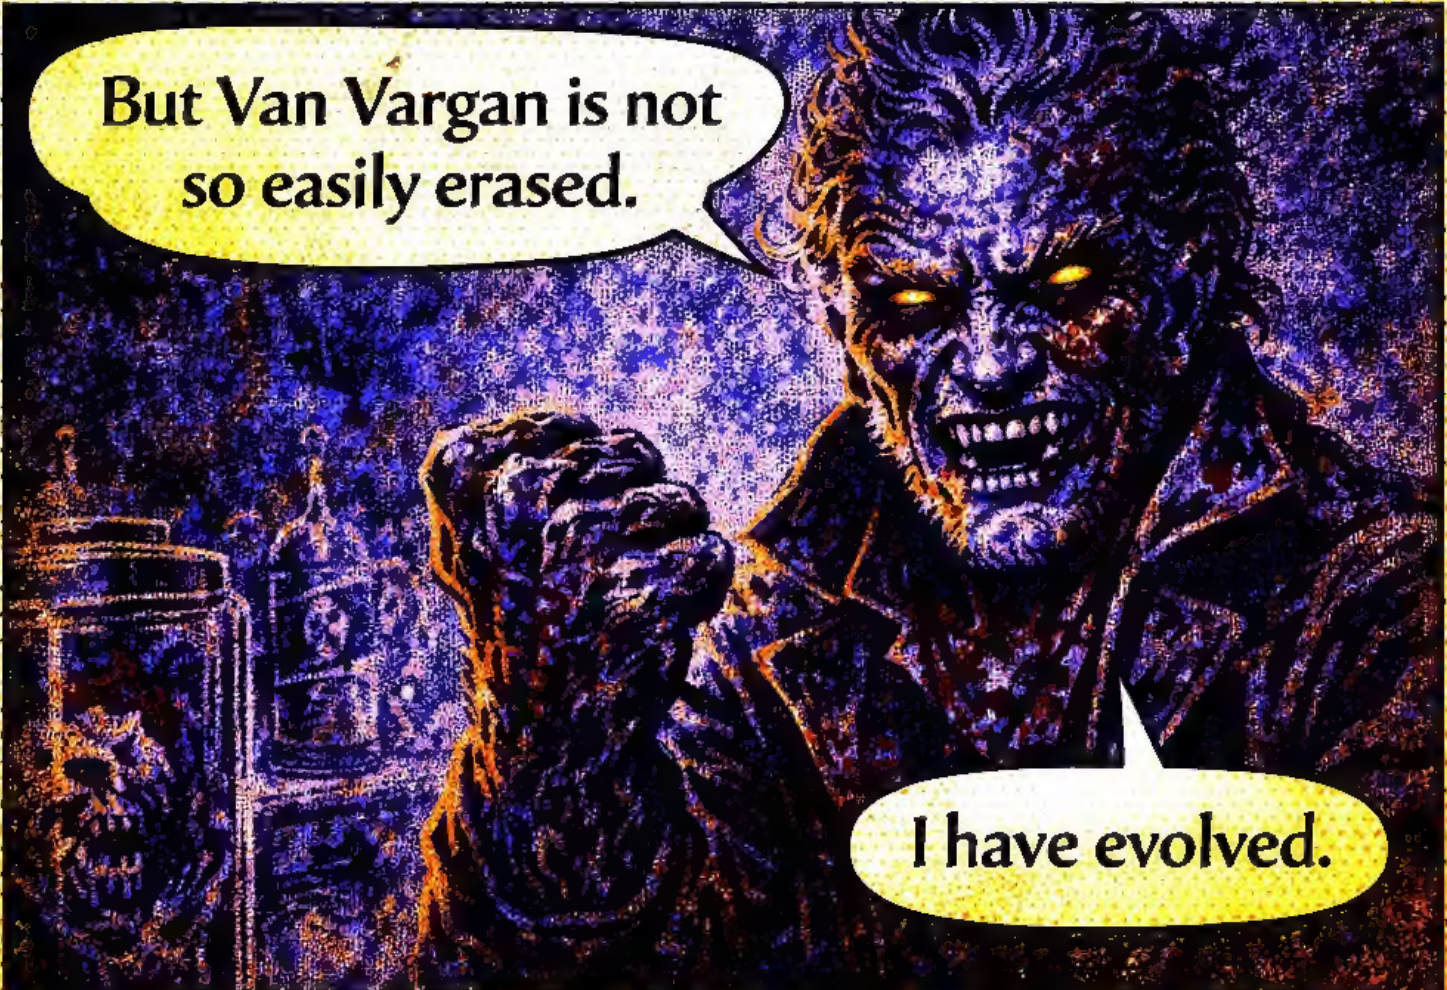

Ritualistic attempts at creation...

You have overlooked me, Mistress Lilith...

But Van Vargan is not so easily erased.

I have evolved.
